# Sexuality After Cancer Treatment

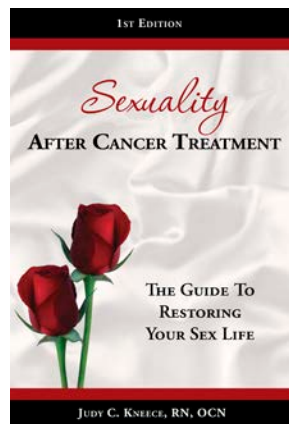

Every year 850,000 females are diagnosed with cancer. The majority of these women undergo chemotherapy. Approximately 70 percent of these women are left with unexpected changes in their sex life—changes that are not life-threatening but disrupt the quality of their life. Because these changes are not life-threatening, they often go unaddressed; instead, women suffer in silence not knowing what they can do. *Sexuality After Cancer Treatment* brings to light the sexuality problems most cancer-treated women face and offers interventions to reduce or eliminate these side effects.

## Topics Include:

- Identifying the Sexuality Impact of Cancer Treatments
- Identifying Major Factors Influencing Sexuality
- Exploring Female Sexual Anatomy
- Interventions For:  
*Vaginal Dryness*  
*Painful Intercourse*  
*Hot Flashes and Night Sweats*  
*Sleep Problems*  
*Fatigue*  
*Urinary Changes*  
*Depression and Anxiety*
- Exploring Benefits of Exercise
- Building Future Health and Immunity Through Nutrition
- Identifying Drugs that Lower Sex Drive
- Understanding Female Sex Drive Components
- Ramping up Female Sex Drive
- Exploring Desire-Enhancing Supplements
- Reclaiming Your Sex Life After Cancer Treatment

Even though the percentage of patients affected by lingering sexual problems is very high after cancer treatment, it is one of the least-discussed side effects.

Suffering in silence is over. This book will help a woman explore the sexuality problems she may be facing and provide interventions to help her reduce or eliminate these side effects. It will help her restore her sex life.

# Male Breast Cancer Treatment Handbook

When a male hears the words, “*You have breast cancer*,” it comes as a shock. Not only has he been diagnosed with cancer, but he has been diagnosed with a cancer that is traditionally known to be a female disease represented by a pink ribbon. This book addresses the unique emotional, medical and physical aspects a male breast cancer patient experiences during cancer treatment and recovery.

## A COMPREHENSIVE GUIDE DESIGNED TO HELP A MALE PATIENT NAVIGATE HIS WAY THROUGH BREAST CANCER TREATMENT

## Topics Include:

- Emotional Impact of Male Breast Cancer
- Support Partner Relationship
- Effective Communication
- Surgical, Treatment and Reconstruction Options
- Understanding The Pathology Report
- Chemotherapy, Radiation Therapy and Hormonal Therapy
- Treatment Side Effects
- Complementary and Alternative Therapies
- Treatment Impact on Male Sexuality
